

For an open and democratic society – solidarity, not exclusion!

Call for action and demonstration #unteilbar (indivisible) Saxony-Anhalt

Let's come together for an open, democratic and diverse society - a society of the many! Now, in the lead-up to the state elections in Saxony-Anhalt, we must all oppose to racism, contempt for humanity and the threat of government influence by the extreme right. We will not allow the welfare state, asylum-seeking and migration to be played off against each other! The strengthening of extreme right groups, the entry of the AfD into the state parliament and the increase in right-wing mobilizations have fuelled right-wing, racist, anti-Semitic, anti-Muslim and anti-Roma violence, strengthened anti-feminism and laid the groundwork for the right-wing terrorist attack in Halle. We will not allow this development to continue!

Not with us - we stand against it!

For a year now, a pandemic has been shaping our everyday lives. Tens of thousands of people have died from the Corona virus in Germany alone. The pandemic affects us all, but by no means all equally: while some are making a profit, countless fear for their existence. In paid and unpaid care work, in "system-relevant" professions and often in precarious employment, women with and without migration hi/stories in particular bear the brunt of the crisis. At the same time, the inhumane situation of refugees being held at the EU's external borders goes on. Like a magnifying glass, the crisis only exacerbates problems which already existed before.

Together, for a democratic society of the many!

As the alliance #unteilbar (indivisible) Saxony-Anhalt, we are joining forces and demanding answers to the Corona crisis and its consequences – to the growing inequality, climate crisis and inhumanity! Only together can we change the political power-balance. We stand up for a society in which human rights are indivisible, in which diverse and self-determined lifestyles are a matter of course - in Saxony-Anhalt and everywhere.

- For a good life for all people, without exception!
- For a world of human rights, peace and social justice!
- For welfare for all!
- For social solidarity against racism, anti-Semitism, anti-muslimism, anti-Romanyism, sexism and right-wing terrorism!
- For a social anti-fascism - no cooperation with the extreme right!
- For a gender-just society!
- For the right to protection and asylum - against the walling off of Europe!
- For climate justice and a liveable future for all!

We are a broad civil society alliance - uniting different political views. This diversity is our strength and solidarity is our power! We are the East in solidarity: together with #unteilbar Mecklenburg-Vorpommern, the Thüringian Solidarity Alliance (Bündnis Solidarisches Thüringen) and our friends in Saxony, Brandenburg and Berlin, we join forces and as the society of solidarity, we take the offensive.

Join us: For a democratic and open society – solidarity, not exclusion!

On April 10, 2021, we will come together in Magdeburg and raise our voices for diversity, solidarity and democracy! For us it is clear: the extreme right must not be allowed to influence the formation of the government in any form, and must be pushed back. Therefore on April 22 in Magdeburg, we will draw the red line together with all democrats! Then we will take to the streets together in Halle (Saale) on May 29 for a democratic and open society. Join us: for solidarity, not exclusion - together we are *#unteilbar* - indivisible!

All planned events will take place considerately and in compliance with current Corona regulations. Watch out for ongoing updates.

SOLIDARISCH, DEMOKRATISCH, VIELFÄLTIG
